## PROFILE

I am a 3rd year computer science student, with 2 years' worth of C++ experience and 3 years' worth of C# and .NET Core. The bulk of my skills are situated in back-end development. I like to write code and am always ready to learn something new!

## EDUCATION

- 2021  
↳ now
- [Sofia University "St. Kliment Ohridski"](#) - Bachelor's degree in Computer Science (in progress)**
- St. Kliment Ohridski is the most prestigious Bulgarian university in the field of Computer Science. We're studying a lot of the mathematics behind computer software, alongside general programming (with C++), algorithms, functional programming and networking.
- 2018  
↳ 2021
- [IT-kariera](#) - Professional qualification (3rd degree) "Applied Programmer" (signed by ELSYS)**
- IT-kariera is a national program in the field of computer science. We studied industrial-level software development and mostly back-end oriented web development with .NET Core and C#. I scored top of my region.
- 2016  
↳ 2021
- [9th French Language School](#) - Secondary Education**

## EXPERIENCE

- 07.2020
- [DevriX](#) - Internship in development of WordPress websites**
- I worked on the back-end of a demo e-commerce application, where I learned about working on a team, following company/industry standards and back-end web development in the context of PHP.

## RELEVANT PROJECTS

- 12.2020  
↳ 04.2021
- [DevHive](#) - Social media**
- DevHive is a group project, founded on ASP.Net Core 5.0, Angular and PostgreSQL. It follows the MVC pattern and REST standard. I worked on almost all features.
- 05.2020  
↳ now
- [syndamiadotcom](#) - Personal website**
- syndamia.com is self-hosted and created from scratch. I gained considerable experience with front-end (JavaScript) development, as well as server administration.
